

Quick Activity 1: School Supplies Calculator

Problem Analysis

Input:

- Number Of Notebooks
- Number Of Pens
- Payment

Processes:

1. Multiply the number of Notebooks by ₱45.
2. Multiply the number of Pen by ₱25.
3. Add the two costs to get the Total Cost.
4. Subtract the Total Cost from the payment to get the change.

Outputs:

- Total Cost
- Change

Pseudocode:

START						
READ	notebooks,		pen,		payment	
notebookSubtotal	-->	notebooks	×		₱85	
penSubtotal	-->	pen	×		₱25	
totalCost-->		notebookSubtotal	+		penSubtotal	
change	-->	payment	-		totalCost	
DISPLAY totalCost, change						
End						

Dry-Run test 1

Given:

- 3 Notebooks × ₱45
- 2 Pens × ₱12
- Payment = ₱200

Calculations:

Step	Variable	Calculation	Solution
1	Notebooks	3 x ₱45	₱135
2	Pen	2 x ₱12	₱24
3	Totalcost	₱ 135 + ₱24	₱159
4	Change	₱200 - ₱159	₱41

Final Bill: ₱159

Change: ₱41

Dry-Run test 2

Given:

- 2 rice meals × ₱45
- 3 drinks × ₱12
- Payment = ₱150

Calculations:

Step	Variable	Calculation	Solution
1	Notebooks	2 x ₱45	₱90
2	Pen	3 x ₱12	₱36
3	Total cost	₱90 + ₱36	₱126
4	Change	₱150 - ₱126	₱24

Final Bill: 126

Change: ₱24
